I bought it by mistake since I was looking for the 1.3 inch version, but I'm quite pleased with it and would recommend it for small sized projects.

Works fine with Micromite (<http://geoffg.net/micromite.html>). On primary I2C port RTC, RDA5708 FM radio and Microchip port expander MCP23008. On software I2C port 0.96 Inch OLED. OLED driver: <https://www.thebackshed.com/forum/ViewTopic.php?FID=16&TID=11662>
